

Innovative Intervention Programs that are Grounded in Research and Proven

HMH® **Read 180** and **Math 180** are designed to provide support that students, teachers, leaders, and families need to accelerate reading and/or math achievement. These intervention solutions are built on years of research and development and a sophisticated understanding of both the difficulties that striving students face and the instructional practices that are most effective in overcoming those difficulties.

Read 180®

- Most thoroughly researched intervention solution on the market established in the Science of Reading
- Fills gaps in foundational Reading skills
- Unified design provides students grades 3–12 the ability to go from phonics to fluency to proficiency

- Tier II and Tier III Intensive Intervention
- Use in a Core Classroom
- Anytime, Anywhere
- Engaging age-appropriate learning
- A single learning platform designed with one log in for both the software and teacher-led instruction
- Flexible implementation models integrated with assessment
- Anchor videos that build background knowledge
- Embedded instruction to cultivate a growth mindset and understand its connection to academic achievement
- Teacher's Corner with 24/7 access to Professional Development
- Growth reporting
- Program activity report
- ...and more

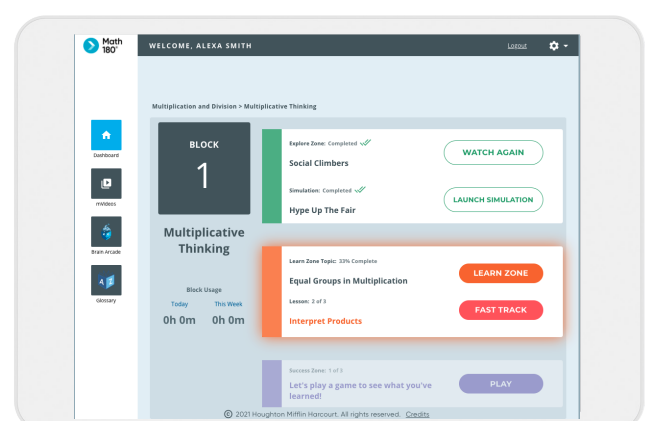

Math 180®

- Real-world problems and skill-centered digital gaming
- Career videos and interactive simulations that engage students with real-world careers
- Student-centered professional learning, including coaching and in-classroom support
