

Important Notice to All Users Regarding Flash Usage and Support

Adobe has announced that it will discontinue Flash by 2020. While no changes are imminent, users may see notices in their browsers asking to turn Flash on. When launching HMH programs, click **Yes** to these notices.

HMH is currently finalizing plans to relaunch its Flash-based programs using HTML5. This will be a multi-year effort and we will keep all users notified as to progress.

HMH is also working with the major browser providers (Google Chrome, Safari, Mozilla Firefox and Microsoft's browsers) to ensure its programs continue to function correctly during this period of transition.
