

Enterprise Edition Version 1.10.1 Release Notes

Introduction

This document outlines the changes in Enterprise Edition version 1.10.1 release. For the latest information about product updates, tips, and techniques, visit the Scholastic Education Product Support website at www.scholastic.com/productsupport.

New Features and Enhancements

- **SAM Database Cleanup Utility**

The new SAM Database Cleanup Utility cleans up outdated files and allows the user to set an alternate backup location for more efficient server backups.

Updates

The following issues have been addressed in Enterprise Edition version 1.10.1.

Scholastic Achievement Manager (SAM):

- **SAM Connect Users May Opt-In for *Scholastic Reading Counts!* (SRC!) Quiz Updates Without Also Opting-In for Product Updates**

SAM Connect users may choose to opt-in to either *SRC!* or product updates, or both. Users are no longer required to choose both or neither.

- **Improved Onscreen Navigation in Internet Explorer 8 on Windows 7 and Windows Vista**

SAM Data Movement Wizards now have anchored **Back** and **Next** buttons at the bottom of the screen scroll for easier navigation.

- **Search Recognizes Apostrophes in Names**

It is no longer necessary to delete apostrophes from school or teacher names when searching.

- **“Lexile Mod Date” Included in Rejected Records *.csv File**

The date of the last Lexile modification is now included as a field in students' *.csv roster file.

- **Sorted Student Search Results May Now Be Printed**

When results are sorted in the student search window, the sorted list prints correctly when **Print Version** is selected.

READ 180:

- **Student Reading Report, Segment Status Report, and Reading Progress Report Display Work Done Across All Reading Levels**

The Student Reading Report now displays work completed at all *READ 180* reading levels, just as the Segment Status Report and Reading Progress Report do.

- **Resource Links in Phonics and Word Study Grouping Report and Spelling Skills Grouping Report Are Active**

The green Resource Links in the onscreen Phonics and Word Study Grouping Report and the Spelling Skills Grouping Report are now active and will return results.

rSkills Tests:

- **Improvements to Content in rSkills Tests**

Content issues, ranging from wording inconsistencies in answer choices to test inconsistencies between onscreen tests and PDFs, have been resolved.

- **Updated Resource Links in Student Skills Report and Summary Skills Report**

The green Resource Links in the onscreen Student Skills Report and Summary Skills Report are now active and will return results.

System 44 (version 1.2.1):

- **Updated Student Software Performance Report**

The Student Software Performance Report now displays a row of data for each cycle a student completes for a Topic.

- **Updated Total Topics Count**

The Dashboard now displays the correct Total Topics count under **My Data**.

- **Consistent Screen Sort on Differentiated Instruction Report**

Onscreen data sorts now appear on the PDF version of the Differentiated Instruction Report.

- **Reading Progress Report Correctly Syncs With *.csv Roster Export**

The program now correctly syncs the *.csv roster export with the Reading Progress Report.

ReadAbout:

- **“Show Me” Links**

All Bonus Card Messages in the Teacher Message Center contain functioning “Show Me” links.

- **Older Client Compatibility With *ReadAbout* Version 1.10.1**

Version 1.10.1 Server is now fully compatible with older versions of the *ReadAbout* client.

Scholastic Phonics Inventory (version 1.3.1):

- **Ability to Choose Individual Schools in the District/School Growth Report and the District/School Status Report**

The District/School Growth Report and the District/School Status Report now contain drop-down menus that display lists of individual schools.

FASTT Math:

- **Mouse Functions Enabled in Zebra Skin for Students Working in Spanish**

Mouse functions are now fully enabled for students working in the zebra skin and using Spanish support.

- **Updated Implementation**

The Implementation Report now correctly generates the School Year Start Date when **This School Year** is selected as the range.

Scholastic Math Inventory (SMI) (version 1.0.1):

- **Improvements to Graphs and Reports**

The Proficiency Band no longer overflows the graph when its value is either “EM” or “1250+”.

The Custom Performance Band of the Performance Level Growth Report is now properly reproduced in the PDF version.

- **Improvements to SAM Advanced Settings**

In the *SMI* Advanced Settings in SAM, the second-grade second performance band no longer overlaps the first band.

Fraction Nation (version 1.1.1):

- **Improvements to Student Transfers**

Students enrolled in Fraction Nation may now be transferred between classes, groups, or schools without having their data revert to Initial Placement.

- **Improvements to Clear the Board Activities**

Keyboard navigation, scoring and hints in Clear the Board activities now function correctly.

- **Improvements to Student Mastery Report, Response to Intervention Report, and Progress Report Improved**

The Student Mastery Report, the Response to Intervention Report, and the Progress Report more accurately reflect students' progress by correcting average score calculations.

- **Mouse Functions Enabled After Changing Windows**

Mouse functions continue to work when switching between windows.

- **Whole Number Components Added to Simplifying Fractions Screens**

Lessons 55, 56, 60, 61, 62, and 63 now have whole number components in their Simplifying Fractions Screens.

- **Correct Flagging in Onscreen Progress Report**

The onscreen Progress Report now flags the Using Different Representations, Expressing Equivalence, and Adding and Subtracting columns when students score 75% or less correct.

- **Incorrect Error Messages When Selecting Reports in SAM Eliminated**

Incorrect error messages no longer appear when selecting Fraction Nation reports in SAM.

- **Incorrect Inactivity Warnings Eliminated**

Incorrect inactivity reports no longer appear.
