

May 2017 Update New Features and Updates

Reading Inventory

- Class level of the Growth Report has been optimized for more efficient operation at grade level.
- Pre-K students may no longer access the Reading Comprehension Assessment.
- Only school administrators may now change proficiency bands for all schools in the district.
- Program no longer unresponsive if users log in with same account on a second computer.

MATH 180 Course I and Course II

- Running the Software Usage report in SAM Central no longer sporadically causes an infinite loading screen.

Do The Math Progress Space

- Additional data points added to the CSV export.

HMH Teacher Central

Resources

- Resource bundles may now be downloaded as zip files as well as individually.
- Blank pages no longer open when users download a resource on a Mac OS-based computer.
- Apply Filters and Reset buttons are no longer active when a Search returns no results.
- Clicking Next or Back on the pagination on the bottom of the screen now takes users to the top of the next screen.
- Various visual improvements.

Class Management

- The Save/Cancel function now prompts for confirmation on the Student Profile screen.
- The Secondary Guardian Last Name field in the Guardians section of Student profiles now allows 50 characters.
- Class Product Settings tab is now clickable immediately after a new class is added.
- Unenrolling students from Do The Math in HMH Teacher Central now also unenrolls them from Progress Space.
- Clicking Cancel on the Gender portion of the Demographics section of the Student profile no longer cancels the previously saved information.
- HMH Teacher Central password requirements for K–2 students now aligns with password requirements in SAM.

HMH Student Central

My Portfolio

- Activities now sort by Date Submitted rather than Activity Name by default.
- Ungraded Fluency Check recordings and Writing Zone activities no longer display an overall score of zero on the Assignment Board.
