Introduction

Managing assessment results to inform classroom instruction is by far the most beneficial aspect of an effective assessment program. Teachers need information about the relative strengths and weaknesses of their students and classes so that they can select the most appropriate instructional techniques and educational materials, as well as communicate important information to parents. Likewise, students need to understand their own strengths and weaknesses so that they can target skills that may need additional development outside of the classroom. Administrators also benefit from an effective assessment program because achievement and ability data can help identify where they can best support teachers as they help students learn and where professional development resources may be needed.

Getting Started

Riverside Scoring Service offers a comprehensive portfolio of results–management tools, including paper reports, local scoring solutions, and web-based administration and analysis tools—to help your school system get the most out of its assessment program. Our Scoring Packages streamline your scoring services order by providing you with a pre-set combination of valuable score reporting services. Or, if you would like to hand-pick your reports, our flexible services can be customized to meet your needs. If you would like to create a customized reporting program for your school or district or if you have any questions whatsoever, please contact your local Assessment Account Executive, or Customer Service. For a listing of Assessment Account Executives in your area, visit www.riversidepublishing.com. For Customer Service, please call 800-323-9540.

Now that you have finished testing, carefully review each topic on the next several pages to ensure your scoring order is processed quickly and accurately.

Selecting Your Primary Reporting Plan

The first step in ordering your score reports is selecting a primary reporting plan. All customers that have their tests scored at Riverside Scoring Service must select a primary reporting plan, which covers processing and scoring of answer documents and provides an initial set of reports for you to review your assessment results. You have two options for your primary reporting plan: Basic Data Package or DataPlus Package. Pricing is tiered within these service packages, based upon the assessment type (Iowa Assessments or *CogAT*) and the levels: <http://www.riversidepublishing.com/products/ia/pricescoring.html>.

Basic Data Package (Paper Reporting as primary plan)

The Basic Data Package includes the processing and scoring of answer documents and one paper copy of the List of Student Scores with Class, Building, and System Summaries. The Basic Data Package is available with *Iowa Assessments*™ Forms E and F, *CogAT*® Form 7, and combined *Iowa Assessments/CogAT* reporting. Basic Data is automatically included and billed with your order unless you indicate you would prefer Riverside's DataPlus Package.

DataPlus Package (Web Reporting as primary plan)

For school systems interested in eliminating paper reports, Riverside Scoring Service offers the DataPlus Package for *Iowa Assessments* Forms E and F, *CogAT* Form 7, and combined *Iowa Assessments/CogAT* reporting. The DataPlus Package includes processing and scoring of answer documents and access to your assessment results through *DataManager*, Riverside's web-based reporting tool suite. **Please note: A Profile Narrative Report for each student tested is now available to you as an Adobe Acrobat PDF file, right from *DataManager*. No separate CD-ROM is shipped.**

Whether Basic Data or DataPlus is the best option for your needs, don't forget to also ask your Assessment Account Executive or Customer Service about access to the Riverside *DataManager* Digital Resource library, where you'll find important interpretive information and other ancillaries needed for optimal management of your assessment program.

When Using Multiple Test Administration Modes

If in addition to shipping paper answer documents to HMH - Riverside for central scanning and scoring service, you also scan and score answer documents locally within your school system and/or administer online testing under a Platinum Data plan, you will still need to select either the Basic Data Package or DataPlus Package on the OSS for the portion of your paper answer document processing that HMH - Riverside will be handling in our central scoring facility. For example, your school system may administer *Iowa Assessments* to students in grades K-2 using consumable test booklets, but *Iowa Assessments* online to students in grades 3 and above. To have the consumable test booklets scanned and scored by HMH - Riverside, an OSS must be submitted with these documents. A choice of Basic Data (paper reports) or DataPlus (web reports) is available for the K-2 student results. Additionally, to have the K-2 student results merged with the results generated from online testing for the upper grades, additional information will be required from you on the OSS. Please see Basic Information under Your Order Form for Riverside Scoring Service (OSS) on page 4.

It is important that the test type included in the online test event exactly matches the test type included in the central scoring order. For example, if the online test event was for *CogAT*, then the central scoring order must only include *CogAT*, to enable the merging of the data. *Iowa Assessments* and *CogAT* data reside in separate online test events, so combined tests for paper testing cannot be merged with online test events.

Revised 10/8/2014

Combined Reporting

When You Administer *Iowa Assessments* and *CogAT* Together

For school systems administering both *Iowa Assessments* Forms E and F and *CogAT* Form 7, combined reporting is available. Combined reporting may be ordered in four ways:

1. Submit combined answer documents for achievement (*Iowa Assessments*) and ability (*CogAT*). This option does not require matching of answer documents and, thus, produces the most accurate reports.
2. Submit separate answer documents with barcode labels. This option produces accurate matches among the documents with barcodes.
3. Submit separate answer documents for achievement (*Iowa Assessments*) and ability (*CogAT*) under the same header sheets.

This option requires matching of answer documents. To ensure proper matching, each student's name, birth date, and gender must be gridded identically on both documents. Differences in coding this data may prevent the proper match of some answer documents.

When an achievement answer document (*Iowa Assessments*) and an ability answer document (*CogAT*) are matched, the student's demographic data are taken from the achievement document. When book 1 and book 2 of the machine-scorable version of the Level 9 *Iowa Assessments* are matched, the student's demographic data are taken from book 1.

4. Submit combined or separate answer documents for achievement and ability, under separate orders, allowing Riverside to automatically pick up the most recent *CogAT* data into a current *Iowa Assessments* order.

When a previously administered *CogAT* is used to produce combined reporting, HMH - Riverside goes back up to two years for a student's *CogAT* results. No additional coding of answer documents is required. You may not wish to combine Iowa and *CogAT* data for all grades. Indicate the grades for which combined reporting service is requested in **Step 3) Select *Iowa Assessments/CogAT* Combined Options** on the OSS. Riverside Scoring Service uses the Standard Age Score (SAS) of a student from *CogAT* 7 to generate a predicted *Iowa Assessments* score on some reports. Although a student's SAS may reflect a Verbal, Quantitative, Nonverbal, or Composite score, predicted *Iowa Assessments* scores are based on *CogAT* Composite (VQN) scores only. To receive predicted *Iowa Assessments* scores based on each student's *CogAT* 7 Composite score, check the "Predicted Scores" check box in the "Circle Iowa Scores to Report (i.e. achievement scores)" section associated with each report for which you would like to receive these predicted scores. There is no additional fee for these services.

Further information on combined reporting and predicted score options is available on page 5 under Selecting Reports and Options, Step 3) Select *Iowa Assessments/CogAT* Combined Options.

Your Order Form for Riverside Scoring Service (OSS)

The OSS included in this package is for Scoring Packages for Forms E and F of *Iowa Assessments* and Form 7 of *CogAT*. It simplifies your ordering process by offering a pre-set grouping of scoring services. If you would like to customize your assessment program with other reports and scores, please contact your local Assessment Account Executive, or Customer Service. For a listing of Assessment Account Executives in your area, visit www.riversidepublishing.com. To contact Customer Service, please call 800-323-9540.

Basic Information

Page 1 of the OSS is where you record all of the basic information about your school system or independent school building. Under "Location Name(s) For Reports", add a check if you are ordering as part of a Public School System or Private School Group, or if you are ordering independently. (This indicates to HMH - Riverside how your reporting data will need to be aggregated.) If you are ordering as part of a Public School System or Private School Group, please provide your System or Group name in the spaces provided. (Note: this is the name that will appear on reports. There is a 20-character limit in this field.) Fill in the "Test Date," "Ship To," "Bill To," and "Other Information" fields. **Please be sure to include your e-mail address in this area.** Indicate if you would like your answer documents returned. (Return service requires an additional fee plus shipping and handling. Please check with Customer Service for current rates.)

If you are sending in "straggler" answer documents and would like to have the data from these documents merged with a previously placed order (i.e. for example, additional documents gathered from make-up testing), provide the previous order number under the section "Do these scores need to be merged into a previous order with the same Test Date?" **Please note: only data that falls within the same testing window (norming period) can be merged.**

If you are a Platinum plan *DataManager* system user who locally scans answer documents or who administers tests online, and thus sends data in to Riverside electronically for scoring and reporting, please tell us if locally scanned/online data files will need to be merged with paper answer documents being shipped to HMH - Riverside for central scanning service prior to reporting by checking "Yes" and providing the *DataManager* Test Event Name under which this electronic data was collected and submitted. (Note: "Test Events" are not the same as "test sessions" when *Iowa Assessments* or *CogAT* are administered online. A Test Event Name is the name applied to your overall test program for the season, i.e. "Iowa Fall 2014", and is found under the 'Assessments' application in *DataManager*.)

Check the tests you have administered for each grade. Enter building names in the rows marked with a double diamond and indicate the answer document count by grade. **Fields marked with a double diamond on page 1 are required to process your order completely.**

Revised 10/8/2014

Selecting Reports and Options

Step 1) Select Norm Period

Iowa Assessments Forms E and F and *CogAT* 7 use a 2011 Norm Year. Additionally, Riverside Scoring Service will automatically apply a Norm Period (or Season) of “Spring”, “Fall”, or “Midyear”, based on your provided Test Date.

For *Iowa Assessments*, there is an option to request Interpolated (or, “Quartermonth”) Norms instead of these seasonal ones. Interpolated Norms provide normative data based on the specific week of testing as opposed to the entire fall, midyear, or spring semester/season.

Step 2) Select Global Options for Reporting

Review each Global Reporting Option carefully and select those you would like applied to your score reports. Global Reporting Options are applied to all paper reports you order from Riverside Scoring Service. Options include:

- Do NOT include Math Computation when calculating Math Total in Core Composite and Complete Composite calculations (optional). *Math Computation is included in all reporting unless excluded with this option.*
- Include Extended ELA Total (Word Analysis and Listening) in Core Composite and Complete Composite calculations (optional). *ELA Total is included in all reporting unless Extended ELA Total is requested with this option.*
- Exclude students coded in the ‘Office Use Only’ section (including students coded Z) from group averages (applies only to those tests coded). *Individual student scores will be provided for all subtests. Students who have subtests coded for exclusion on their answer documents will have those subtests excluded from all group summaries. See the Supplemental Coding Guide for instructions on how to code for subtest exclusion.*
- Do not report ACT®/SAT® predicted scores, grades 6–11, on the List of Student Scores.. *Predicted scores will not be reported at grades 6–11 achievement testing on list reports if this option is selected. There is no extra cost to provide these predicted scores.*
- Do not report School Norms. *School norms will not be reported if this option is selected.*
- Do not print Program Descriptions (for example, Free/Reduced Lunch) on List of Student Scores and Student Score Labels. *If not selected, program information, such as any special programs in which a student is enrolled, will print on the List of Student Scores and Student Score Labels.*
- Exclude the Sentence Completion subtest from Verbal score calculation for students coded ELL (levels 5/6–8, *CogAT* only). *An ‘alternate’ Verbal Score that excludes Sentence Completion will be provided for English Language Learners. Check this box and be sure to mark the ELL circle under Programs on the answer documents of these students.*
- Exclude the Sentence Completion subtest from Verbal score calculation for students coded ‘S’ in the ‘Office Use Only’ section (levels 5/6–8, *CogAT* only). *An ‘alternate’ Verbal Score that excludes Sentence Completion will be provided for English Language Learners. Check this box and be sure to mark the S circle under Office Use Only on the answer documents of these students.*
- Exclude the Verbal Analogies test from Total Score calculation for students coded ELL (levels 9 and above, *CogAT* Screening Test only). *An ‘alternate’ Total Score that excludes Verbal Analogies will be provided for English Language Learners. Check this box and be sure to mark the ELL circle under Programs on the answer documents for these students.*
- Exclude the Verbal Analogies test from Total Score calculation for students coded ‘V’ in the ‘Office Use Only’ section (levels 9 and above, *CogAT* Screening Test only). *An ‘alternate’ Total Score that excludes Verbal Analogies will be provided for English Language Learners. Check this box and be sure to mark the V circle under Programs on the answer documents for these students.*

Step 3) Select Iowa Assessments/CogAT Combined Options

If your school system has administered both *Iowa Assessments* and *CogAT*, you have the option to receive combined reports in your scoring package. Combined reporting is available for *Iowa Assessments* Forms E or F and *CogAT* Form 7 only (no *Iowa Tests* Forms A, B, or C, or *CogAT* 6). To confirm that you would prefer *Iowa Assessments* and *CogAT* results for your students to be reported together on eligible reports, check the box next to “Report Iowa/*CogAT* scores on a combined reporting template for the following grades (circle any/all that apply)”, and circle the grades for which combined reporting service is requested. Combined reporting templates are available with the *List of Student Scores*, *Class, Building and System Summaries*, *Group List of Summaries*, and the *Profile Narrative*. There is no additional fee for the combined versions of these reports.

If Predicted Scores are requested, the Standard Age Score (SAS) from the *CogAT Composite* (VQN) is used to calculate these predictions. The difference between the actual and the predicted scores are also reported. You may wish to see only where the most extreme differences appear. Hence, by default, the middle 80% of scores and differences are suppressed. To see more or less than the default suppression range of the middle 80% reported, select either “Suppress Middle 68%” or “Suppress Middle 90%” to broaden or reduce the range of scores and differences that will be displayed.

Step 4) Select Scoring Package

Select the specific Scoring Package you would like to order. Each Scoring Package includes processing of answer documents. The Basic Data Package provides paper reporting as the primary output. The DataPlus Package provides web reporting as the primary output. Platinum Package or *DataDirector* customers choose from one of these two scoring package types as well, depending upon the desired *Iowa Assessments* and/or *CogAT* reporting output – paper, or web-based, through *DataManager*. After you have selected a package, please select the scores unique to a specific reporting service in that package. Default scores are underlined and in bold. Lexiles® and Quantiles carry additional per student fees with the Basic Data Package. Lexiles and Quantiles are included for no additional fees in web reporting, with the DataPlus Package. For more information on these measures, please see www.metametricsinc.com.

Step 5) Select Additional Services

While the Scoring Packages offer a pre-set bundle of scoring services, you may still elect to add additional optional reports. Do you need to provide diagnostic, skill domain-level information to teachers and administrators? Try the *Individual and Group Performance Profile*. Do you need a self-adhesive label to attach to your students' cumulative record folders? Try *Student Score Labels*. Do you need metrics to demonstrate the progress of your grade 2-12 students in the transition to the Common Core? Try the *Individual and Group Common Core Domain Reports*. Be aware that additional reports include additional costs.

Preparing Answer Documents for Scoring**Before packing materials, check for the following:**

- If local norms are being ordered, all answer documents must be shipped in one order. If answer documents are not shipped in one order, late charges may apply.
- The name grid on each answer document must be marked correctly, or the scannable barcode label must be affixed properly.
- The date of birth must be coded correctly as month, day, and year. This is especially important when *CogAT* documents are used, and when predicted scores are requested.
- The form administered (E, F, or 7) is coded correctly on the student answer document and the Grade/Class Identification sheet.
- Home Reporting codes have been marked, where applicable (i.e. for *Iowa Assessments* Profile Narrative reports to be generated in Spanish for those students who are coded with a '2').
- Responses have been marked as prescribed for all tests, and all stray marks have been erased.
- All Grade/Class Identification sheets have been completed correctly, and show the number of documents being submitted, the Grade, and the Form of the test administered. One completed Grade/Class ID sheet should be placed on top of the stack of answer documents for each class group. See page 7 for an example. This information is also found on the back of the Grade/Class Identification Sheet.
- To prevent the book spines from bending, stack the machine-scorable test booklets in groups of five. Alternate the spines of the booklets, placing the stapled edge of the first group on the right and the stapled edge of the second group on the left. Continue alternating the remaining groups of five.
- Do not use paper clips, string, etc., to bind class or building groups together. Use of these or other devices may tear the edges of your documents or cause them to be unscannable.
- Remove all post-it notes and scratch paper from answer documents. Such items can result in processing delays.
- The Building Identification Sheet must be marked properly and placed on top of the stack for each building. Please refer to the sequence for assembled documents on page 7. This information is also found on the back of the Building Identification Sheet.
- When separate answer documents (e.g., primary grade test booklets for *Iowa Assessments* and *CogAT*) are shipped together in one order and combined reporting service is requested, both booklets for each class should be stacked together behind one Grade/Class ID sheet. All *CogAT* booklets should be stacked together, and all the *Iowa Assessments* booklets should be stacked on top of the *CogAT* booklets. If two Grade/Class ID sheets are used for a classroom, documents may not be matched properly.

Packaging Answer Documents

- Package all answer documents by building. The order of the buildings is unimportant, but packaging all answer documents for a building in the same box is best for processing purposes. If this causes the box to become too heavy, package the answer documents in consecutive boxes in your shipment to avoid the risk of the box breaking open while in transit.
- Use rigid, sturdy cartons to ship your materials. If you use two or more envelopes or small cartons, consider consolidating them into one sturdy carton to avoid separation and possible delay of part of your shipment.

Revised 10/8/2014

- Pack the carton(s) well, using crushed or shredded paper on the sides of and between stacks. Do not leave space for documents to move within the box. If documents shift within the carton, they may be shuffled out of order and become damaged in shipment, possibly causing your order to be delayed.
- Answer documents for the *Iowa Tests* Forms A, B, and C, and *CogAT* Form 6 must be packed separately from answer documents for *Iowa Assessments* Forms E and F and *CogAT* Form 7.
- If you have one container, mark it “package 1 of 1” and include your OSS in the top of the box. Complete all requested information on the OSS to avoid processing delays.
- If you have more than one container to ship:
 - Identify the sequence of containers by writing “package 1 of _” on the first box, “package 2 of _” on the second box, etc.
 - Include the OSS in the container designated as “package 1 of _”.
- Seal the containers securely so that the answer documents will not be lost. If you must split buildings, then use only one Building ID Sheet for this building and be sure the rest of the building’s documents are in the next consecutive package.
- Ship your documents prepaid via a traceable carrier.

Requesting Additional Scoring Service Materials

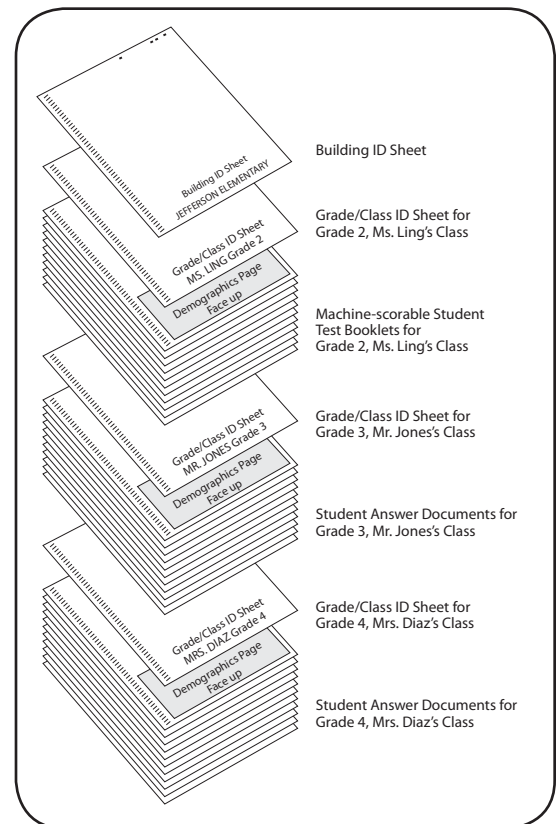

- The instructions for sending answer documents, the OSS, and the preaddressed mailing labels are all included in this package.
- As soon as you receive your answer documents, remove the Building and Grade/Class Identification Sheets and put them in a safe place to use later for packaging.
- Check that you have enough of each of the Building and Grade/Class Identification Sheets needed to assemble your materials for shipment to Riverside Scoring Service.
- If you do not have all the necessary materials to package your answer documents and order your scoring services, you may request additional materials from HMH - Riverside Customer Service at 800.323.9540. The instruction sheets and OSS may be photocopied as needed. Building and Grade/Class Identification Sheets should not be photocopied because they will be scanned at Riverside Scoring Center.

Shipping Answer Documents

When planning your testing program, schedule enough time between test administration and post-test use of the results for Riverside Scoring Service to process your answer documents and ship your reports. Once we receive your shipment, it may take up to 10 business days to process. If answer documents are not in processable condition when they arrive, results may be delayed beyond this time frame. Test results will be shipped to you via 2-day air unless otherwise specified.

Avoiding Processing Delays

- Typical processing time is 10 business days from the day HMH - Riverside receives your documents.
- To avoid delays, carefully check your OSS and other forms.
- If any information is missing, unclear, or incorrect, Riverside Scoring Service reserves the right to process the order using standard processing rules in order to avoid delays. If we must contact you for resolution, we cannot guarantee that reports will be shipped within the allotted time period.
- Ensure that each box has a Forms EF/7 label. The absence of this label could delay your order. **Do not package answer documents for the *Iowa Tests* Forms A, B, and C, and *CogAT* Form 6 with answer documents for *Iowa Assessments* Forms E and/or F and *CogAT* Form 7.**

Organizing Answer Documents and Identification (ID) Sheets for Shipment

Expedited Scoring Service

Expedited processing may be requested for a 5-day turnaround (5 business days) from receipt of your scoring order at Riverside's Scoring Center. Expedited processing is at an additional cost for your scoring order. Advanced scheduling for this special service is necessary.

- Basic scoring service including paper reports may be expedited for 5-day turnaround from receipt of materials at our facility to shipment of reports from our facility for a 10% surcharge.
- Paperless scoring plans, including web-based DataPlus with reporting in *DataManager*, may be expedited for 5-day turnaround from receipt of materials at our facility to web-based publishing of reports for a 15% surcharge.

Contact HMMH - Riverside Customer Service at 800.323.9540 for more information and to schedule your expedited order.

Please follow these processing prioritization procedures when submitting your request.

- Contact Customer Service to obtain the Customer Approved Priority Expedite (CAPE) form.
- Complete the CAPE form and e-mail it to HMMH - Riverside Customer Service (RPC_Customer_Service@hmmhco.com) to schedule expedited processing for your scoring order.
- Your Customer Service Representative will return the CAPE form to you with scheduling confirmation.
- Check the box in the upper right hand corner of your Order for Scoring Services (OSS) indicating your expedited service is confirmed and scheduled. Include a copy of the completed, HMMH - Riverside approved, Customer Approved Priority Expedite (CAPE) form with your Order for Scoring Service (OSS) in Box 1 of your shipment.

Expedited orders must be confirmed with Customer Service and scheduled prior to shipping materials to Riverside Scoring Service.

Riverside Scoring Service is committed to processing your expedited order to meet the promised 5-day turnaround time so that you can have your reports when they are needed. However, our ability to process your documents quickly is directly impacted by the condition in which they are received. Orders should be complete, properly organized and in good condition. Please carefully follow all of the guidelines outlined in these Ordering Instructions with respect to preparing, organizing, and shipping your documents to ensure maximum efficiency in processing your scoring order.

Unless otherwise instructed, ship answer documents, prepaid, to:

Riverside Scoring Service
HMMH - Riverside
Forms E, F and 7
761 District Drive
Itasca, IL 60143-1319

Purchase Orders

If your school or district requires the use of a purchase order, be certain that the purchase order number is on your OSS under "Other Information." However, do not send the purchase order with your answer documents. *The purchase order cannot be used as a substitute for the OSS.*

Send the purchase order to:

Customer Service
HMMH - Riverside
3800 Golf Road, Suite 200
Rolling Meadows, IL 60008-4011

Inquiries about Scoring Service Orders

All report shipments should be checked immediately upon receipt. You must report errors within 30 days of receipt and the error must be determined to have resulted from an HMMH - Riverside technical issue to obtain corrections at no charge. If a customer action resulted in the error, there may be billable charges for the correction. To inquire about an order, please be ready with the order number printed on the score report on the top right-hand corner.

Direct requests for information about the status of scoring service orders to:

Customer Service
HMH - Riverside
3800 Golf Road, Suite 200
Rolling Meadows, IL 60008-4011
Phone: 800.323.9540
Email: RPC_Customer_Service@hnhco.com

Making Payments

Invoices for services and shipping and handling charges are normally mailed two to three weeks after the score reports have been sent to your school. If more rapid billing is required at the end of the budget year, please call Customer Service with your purchase order and information about your order (e.g., date shipped, grades, services requested, etc.). Indicate when the billing statement must be received. Every effort will be made to fulfill your billing request. However, HMH - Riverside is not responsible for fulfilling billing requests made on short notice.

Terms are net 30 days.**Send payments to:**

14046 Collections Center
Chicago, IL 60693

Copyright Restrictions

To produce score reports, HMH - Riverside uses copyrighted tables. The provision of the data from these tables does not give or imply permission to replicate norms data listed on the reports or to derive or extract data from the norms or other copyrighted tables. Such replication without prior written permission from an officer of the company is a violation of copyright laws.

Special Scoring Services

In addition to the scoring services listed in the catalog, HMH - Riverside has developed a variety of special services and special programs. Inquiries about the special scoring services and programs for counties, dioceses, and large-school units must be made at least three months before tests are administered.

Confidentiality of Reports

The distribution of reports or passwords for *DataManager* web reporting (including web reporting keys) to the appropriate people is the responsibility of the scoring service purchaser and user (*DataManager* Account Holder). The facilities used by Riverside Scoring Service meet stringent government security regulations. Riverside Scoring Service will not send reports or passwords to anyone inside or outside the school district without written authorization from the person to whom original results were sent or the person who signed the OSS.

Minimum Charges

Minimum charges are applied to some scoring services (e.g., system use reports). Minimum charges and prices are listed in the catalog. To avoid paying minimum charges and to obtain maximum data on your reports, do not ship answer documents for individual grades and buildings under separate order forms. Batch all district answer documents requiring the same services. The most common reason for minimum charges is split shipments of documents for classes, grades, or schools.

Return Policy

Scoring service reports, CD-ROMs, and disks are not returnable for credit.

Ordering Additional Reports after Original Processing (Late Service Requests)

Additional scoring services (Late Service Requests) may be requested after you receive your score reports. To obtain additional services after receiving your reports, you must:

- call Customer Service at 800.323.9540
- provide the order number from your original order, report title(s), number of copies, and options for each grade(s)
- provide a new purchase order for the services with complete "Ship To" and "Bill To" names and addresses

Late Service Requests will be processed and shipped within 10 business days.
