

Classroom Packages

HMH **GO Math!**® was built from the ground up for the Common Core State Standards and has been designed to help you prepare your students for success on common and high-stakes assessments.

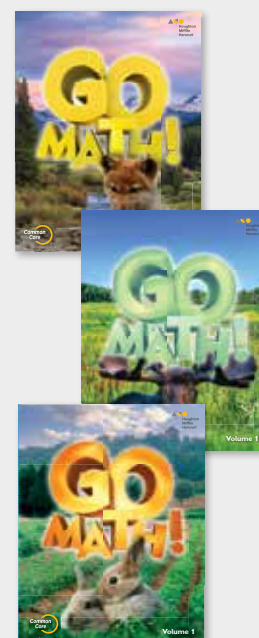

Multiple Ways to Access Content

GO Math! continues to provide the same trusted content used by over 7 million students in 72 countries around the world, but we've made it flexible to meet the needs of teachers and students in the classroom, at home, and on the go. We offer customized and comprehensive packages to match the needs of schools with fully digital classrooms and the needs of schools just getting their first taste of 21st-century technology. We offer additional resource packages for teachers and students.

HMH Classroom Packages

- Premium:** Our Premium package provides you with our most comprehensive offering in both print and digital formats, extensive digital/online resources for in-class and on-the-go learning, robust teacher assets, and classroom materials.
- Hybrid:** For teachers looking to access trusted HMH® content in both print and digital formats, our Hybrid package is the perfect fit.
- Transition:** Our Transition package offers access to our print content along with several digital extras to help teachers and students who aren't quite ready to move to fully digital instruction.
- Digital:** Digital Classroom Packages are designed for schools looking to add digital access to their purchase. These packages provide access to 25 Interactive Student Editions (includes **Personal Math Trainer**® Powered by Knewton™) and the Teacher Digital Management Center.
- Individual:** Extra sets of student and teacher materials can be purchased.

GO Math! K–6 © 2015 Classroom Packages

All Classroom packages include enough resources for **25 students** and **1 teacher**

- All items available in print are available digitally.
- Student and Teacher add-on packages are available.
- Contract lengths are available for 1, 3, 5, and 6 years.

Getting Started with **GO Math!**

When you choose a new math program, you want to support student academic achievement and preparation for college, careers, and civic life. In addition to the self-paced professional learning resources embedded in **GO Math!**, HMH offers services to support initial implementation with your program purchase.

Getting Started for Teachers

Teachers engage in a variety of hands-on experiences to learn about program organization, design, and resources. Through direct instruction, guided practice, and cooperative exploration, teachers experience **GO Math!** resources both from a student and teacher perspective.

Learning Outcomes:

- Enrich daily instruction by applying knowledge of program organization and pedagogy
- Support differentiation, assessment, and effective whole- and small-group instruction using **GO Math!** resources and instructional tools
- Enhance instructional delivery and student learning using HMH technology

Getting Started Delivery Options

Delivery	Time	Description
In-person	Half day	A Professional Learning Consultant delivers Getting Started as a half-day in-person course.
In-person	Full day	A Professional Learning Consultant delivers Getting Started as a full-day in-person course. The full-day course gives teachers more time to practice and explore with the support of a GO Math! expert.
Train the Trainer	Full day	Our Professional Learning Consultants help school and district trainers deliver initial program training at their respective sites. Train the Trainer is a cost-effective approach for schools and districts looking to build capacity internally.
eLearning	Self-paced	Get anywhere, anytime access to Getting Started with the self-paced eLearning course. These courses are perfect for new teachers, professional learning communities, and as an ongoing reference.
Webinar	Two hours	A Professional Learning Consultant conducts Getting Started through a live webinar.
