

Writable

Accelerate **Multilingual Learners** to Writing Proficiency with **Writable**

Integrate scaffolded writing practice with your multilingual learner curriculum to support all levels and language modalities from a single platform. Writable allows students to plan, draft, revise, and edit their academic writing assignments. The side-by-side reading and writing provides access to texts for students to reference when providing evidence and citing sources in their writing.

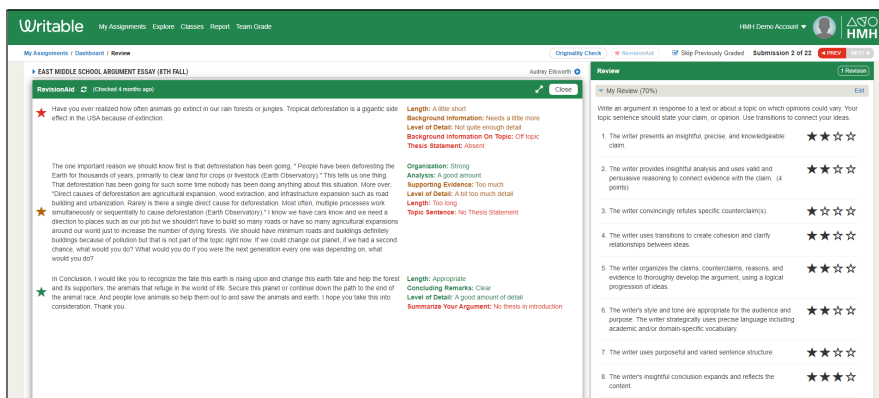

Supports designed specifically for multilingual learners effectively scaffold academic writing tasks. Assign writing frames at different levels of support to provide a gradual release as students move toward writing independence. Additionally, Spanish-speaking students can access several readings in Spanish and even switch the navigation menus to Spanish in their account settings.

Why Writable?

Writing support designed specifically for your multilingual learners

- **Create and customize** your own writing prompts and rubrics
- Give **real-time feedback** with anonymous peer review
- **Sync writing** with Google Classroom integration
- **Share** custom district rubrics and assignments
- Offer **assessment practice**, including ACCESS and ELPAC
- **Personalize assignments** to meet students' specific needs
- Add **video instruction** to any assignment to guide students in the writing process
- Send **personalized audio or video clips** to provide remote feedback to students

Writable's AI-Driven Tools

Teachers can guide students earlier in the writing process while saving time on grading with AI-driven feedback on revisions, grammar, and syntax. Students can be given help in real-time or assigned further practice through the teacher's dashboard insights.
