

New Features and Updates

January 11, 2019

Student Achievement Manager (SAM)

Version 3.1.0-66

Updates

- Resolved issues that caused functionality issues with the Student Digital Portfolio, enrollment, and reports.
- Resolved an issue that caused the *iRead* Skills Mastery Report to not appear for school administrators.
- Resolved an issue that caused the Reading Progress Report to not appear for school administrators.
- Resolved an issue that caused the grade-level Proficiency Summary Report in *Math Inventory* to show totals for the grade across the district rather than for just the school, as requested.
- Resolved an issue that kept the custom date range in SAM reports from being saved when switching between classes.
- Resolved an issue that showed an incorrect total of available licenses in SAM when site-based licensing is used.

System 44 Next Generation

Version 3.0.1-25

Updates

- Resolved issues that caused the program to fail during the following circumstances:
 - After using all the time allotted when recording in the Read and Record activity.
 - When dragging words “unwillingness” and “decomposing” in Mix and Match activity.
 - During the syllable separation of the Word Splitter activity.
- Resolved an issue that kept the Sight Word Checkup from advancing to the next word when it is the same as the previous word.
- Resolved an issue that caused words missed to not appear in the Progress Monitor.
- Resolved an issue that caused the Español button to appear in the Word Splitter activity when this function was not selected in Program Settings.

- Resolved an issue that caused the Word Meaning Match and Read and Think activities to continue after clicking the Quit button while audio was playing.
- Resolved an issue that caused the Word, Phrase, and Practice buttons to incorrectly appear during recording in the Success Recording activity.
- Resolved an issue that caused a media error in the Word Splitter activity in Topics 14.2 and 14.3.
- Resolved an issue that caused the Sight Words Checkup and Progress Monitor activities to generate error messages in some cases.
- *System 44* now pulls media from the CDN if the Managed Media Accelerator is not accessible.
- Visual improvements

Math Inventory

Version 3.0.1-17

Updates

- *Math Inventory* answers are no longer obscured when the browser window is resized.

Reading Inventory

Version 3.0.0-55

Updates

- Corrected a content error in a *Reading Inventory* question.

Reading Counts!

Version 3.0.0-27

Updates

- Resolved an issue that caused Advanced Search to fail when searching by title or author only.
