

New Features and Updates

February 1, 2019

Student Achievement Manager (SAM)

Version 3.1.0-71 (HTML5 Version 1.0.0-1783)

New Feature

- Administrators may now set custom teacher permissions when editing the teacher profile.

Updates

- Resolved an issue that created a discrepancy in the number of submissions on the Student Digital Portfolio when viewing in SAM and when viewing in SAM after logging in to HMH Teacher Central.
- Resolved an issue that kept district profile information from displaying in the SmartBar adding a school in SAM.
- Resolved an issue that caused classes with no students to appear in the Student Digital Portfolio.
- Visual enhancements to the Print functionality within the Student Digital Portfolio
- Visual enhancements to the *MATH 180* assignments in the Student Digital Portfolio when viewed in Print Preview.
- Resolved an issue that caused a blank screen to appear when a teacher associated with multiple classes clicked the Report tab in SAM.
- Resolved an issue that caused an incorrect number of Software Submissions to show on the Inbox tab on the Student Digital Portfolio.
- Resolved an issue that caused an incorrect number of quiz questions to appear in the Quiz Manager in SAM.
- Resolved an issue that caused an incorrect number of available licenses to appear for teachers in the Manage Student Enrollment screen in SAM.

Math Inventory

Version 3.0.0-18

Updates

- All kindergarten Quantile scores now have associated percentile, NCE, and Stanine data on the CSV export.

System 44 Next Generation

Version 3.0.1-29 (HTML5 Version 1.0.3-65)

Updates

- Resolved an issue that caused an error message when clicking the backspace key when the text input is not active in the Dictation and Spelling Challenge activities (Firefox users only).
- Resolved an issue that kept the cursor from appearing and the forward delete key and arrow keys from functioning when maximum characters are reached in the Dictation and Spelling Challenge activities (Firefox users only).
- Resolved an issue that caused a 1568 error if the student clicked the speaker icon after clicking the Go On button in the Dictation activity.
- Resolved an issue that caused a 1568 error in the Dictation activity (Firefox users only).
- Resolved the following issues with the Success Videos:
 - Resolved an issue that caused captions to differ from the narration in Series 25 or be cut off before the end of the narration in Series 11 and 12.
 - Resolved an issue that caused a partial caption to remain onscreen on Series 2 and Series 16.
 - Resolved an issue that caused the student's voice to not be accepted if permissions were not granted to the browser before the voice over completed.
 - Increased microphone sensitivity for the recording activities in all browsers.
 - Resolved an issue that kept video from playing on the Video tab in the Student Dashboard.
 - Resolved an issue that caused the software to appear to freeze in the Word Strategies activity in Topics 11.5, 13.1, and 16.2.
