If I am a *READ180* Next Generation customer and upgraded to *READ180* Universal how do I access my *Reading Counts!* licenses to get access to all of the quizzes in *Reading Counts!*?

Even though *READ180* Universal does not come with *Reading Counts!* if a customer is upgrading from *READ180* Next Generation, we do not take away those licenses. They will still be on the same server, the district will just need to enroll the *READ180* Universal student in *Reading Counts!* as well. Students will then access *Reading Counts!* from the Student Gateway, and not from within Student Central. The *Reading Counts!* licenses will be treated like a standalone product.

How do schools stay current with the quiz data base?

Perpetual locally hosted customers need to purchase Access Renewal yearly in order to receive the monthly quiz updates. Hosted or Web Subscription customers need to renew their hosting services or web subscription licenses yearly to receive the updates.

How often are new or updated quizzes sent out to current customers?

Reading Counts! quizzes are sent out on a monthly basis. Three times a year complete collections are sent out to current customers.
