xSkills Overview

xSkills are curriculum-based assessments in Expert 21 designed to monitor content progress, support instruction, and provide summative data. xSkills tests are available in print and interactive formats that can be used after each workshop.

The Expert 21 Environment

xSkills is part of Expert 21, a comprehensive, web-based technology system that provides students, teachers, and administrators with access to programs from any Internet-connected computer. Expert 21 is comprised of three programs—xSkills, Expert Space, and *The Reading Inventory*. Student Achievement Manager (SAM), is the data collection and reporting tool of Expert 21.

About This Manual

This manual covers how to enroll students in xSkills and use xSkills program settings and xSkills reports. For other reference issues, see the chart below. All manuals are available at the [Expert 21 Product Support](#) website.

Buttons: Cancel, Cancel & Return, Save, Save & Return

Students must be enrolled in Expert 21 before they may access the xSkills site and use the programs. To enroll students in Expert 21, use the **Manage Enrollment** link on the class’s Profile nnn in SAM:

1. Open the Profile screen for the class or group that has the students to be enrolled by double-clicking that class or group in the **SmartBar**.
2. Click the **Manage Student Enrollment** link under **Manage Roster** in the upper right corner of the screen.
3. Use the check boxes to enroll students in any program, or use the check boxes at the top of the chart to enroll every student in the list at the same time.
4. Click **Save** to save changes or **Save & Return** to save changes and return to the **Profile** screen.

For more information on enrolling students using SAM, see [Enrolling and Managing Students Using Student Achievement Manager](#) at the [Product Support](#) website.

xSkills Program Settings

The Program Settings menu consists of two tabs: the xSkills Test Assignment tab and the xSkills Settings tab.

The screenshot shows the 'Expert 21 Program Settings' window with the 'xSkills Settings' tab selected. The 'Test Experience' section has checkboxes for 'Include audio directions' (checked), 'Show correct and incorrect answers' (checked), 'Include constructed response questions' (unchecked), and 'Include writing prompt' (unchecked). The 'English-Language Learner Audio Directions' section has radio buttons for 'None' (selected) and 'Spanish'. Below these are three tabs for '2-pt Scoring Guide', '4-pt Scoring Guide', and '6-pt Scoring Guide'. The '2-pt Scoring Guide' is active, showing a table with two rows: a score of 2 labeled 'Satisfactory' and a score of 1 labeled 'Insufficient', each with a corresponding description of the response quality. At the bottom are buttons for 'Restore Defaults', 'Cancel', 'Cancel & Return', 'Save', and 'Save & Return'.

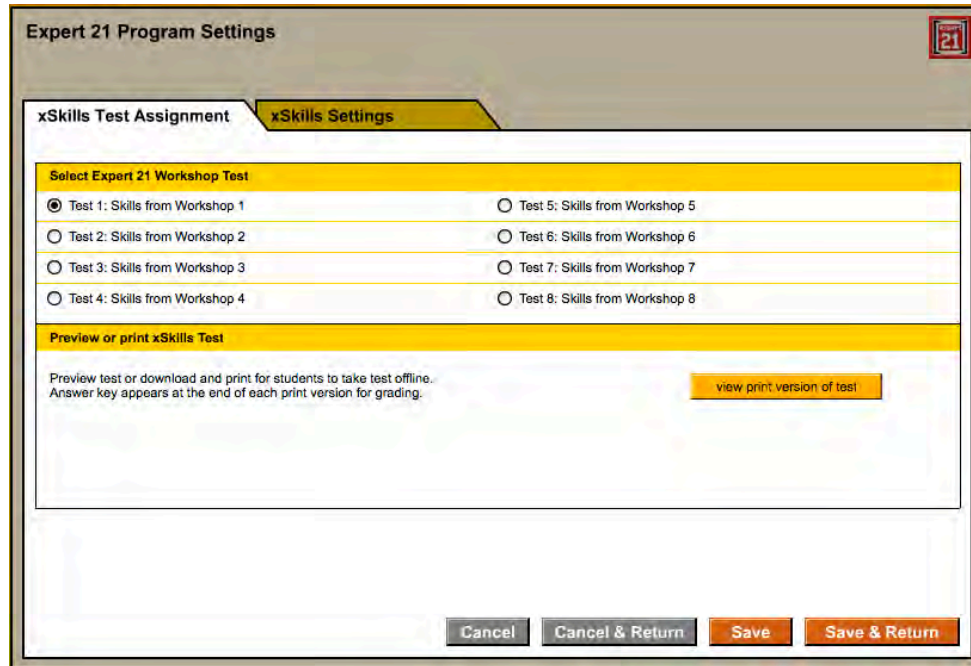

Score	Label	Description
2	Satisfactory	<ul style="list-style-type: none"> Responds to the question and includes two or more important elements of the expected response. Provides a complete and well-reasoned analysis, interpretation, or synthesis of information and ideas. Response is well supported by details or evidence from the text.
1	Insufficient	<ul style="list-style-type: none"> Responds to the question but includes only one important element of the expected response. Provides information or ideas that are partially supported by evidence from the text.

Use the Program Settings in SAM to individualize xSkills tests for students. The Program Settings allow teachers to:

- Turn audio directions on or off for any xSkills test
- Preview tests in a pop-up window before assigning to students
- Print a preview test
- Provide audio support for English language learners
- Allow students to view correct or incorrect answers after completing the test
- Include constructed response questions on tests
- Include a Writing Prompt on tests
- Modify the scoring guides to meet student needs

Access the xSkills Settings screen by clicking the **Settings** link next to the Expert 21 icon at the bottom of the school or class's Profile screen.

The xSkills Test Assignment Tab

There are two areas of the *xSkills* Test Assignment tab, one that allows users to select an *xSkills* test, and one that previews or prints the test. To select a test from the *xSkills* Test Assignment tab:

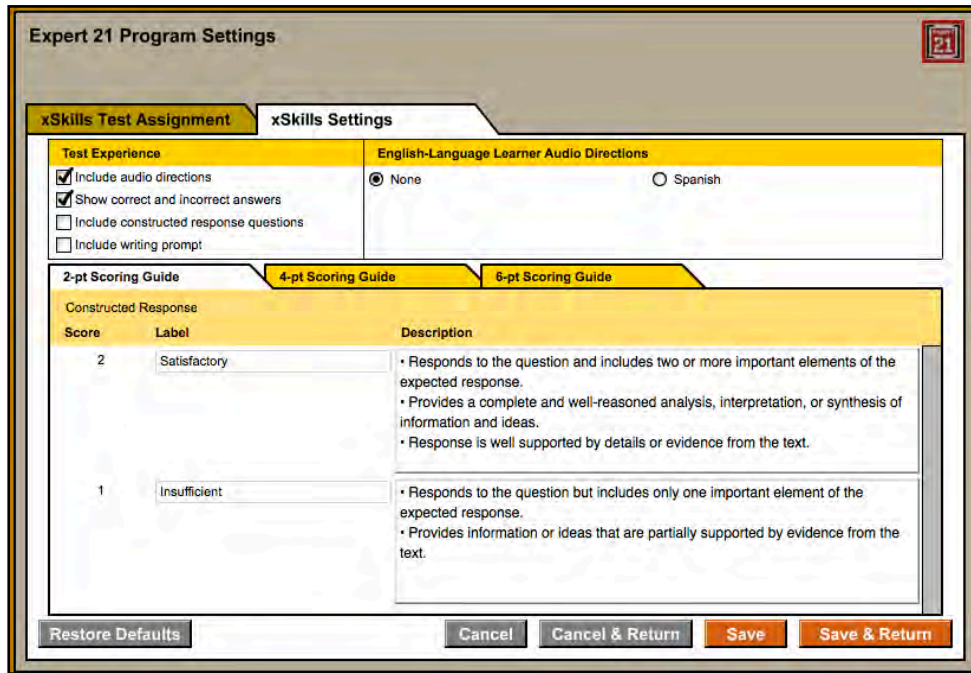

1. Select the class, group, or student from the SmartBar. Tests may be assigned to individual students or to every student in a group or a class. Teachers and administrators may also assign a test to all of a teacher's students by clicking **My Classes** in the SmartBar.
2. Click the radio button for the test to assign. The skills covered in each test correspond to the skills taught in the Expert 21 workshops.
3. Click **Save & Return** to keep the information and return to the Profile screen, or click **Save** to keep the information and remain on the Test Assignment tab.

To preview and print a test from the Test Assignment tab:

1. Choose a test to assign. The Preview or Print *xSkills* Test screen appears at the bottom of the tab.
2. Click the **View Print Version of Test** button. A PDF of the test opens in a separate browser window. Use the PDF print function to print a copy of the test and answer key.
3. Click **Save & Return** to save the information and return to the Profile screen, or click **Save** to save the information and remain on the Test Assignment tab.

The xSkills Settings Tab

Use the xSkills Settings tab to individualize each student’s test-taking experience. This tab contains settings and options for:

- Test Experience
- English Language Learner Audio Directions
- Scoring Guide Settings

Test Experience Settings

Test Experience Settings include the following:

- **Include audio directions:** Use the check box to enable or disable audio directions, which allow students to hear test-taking instructions. The default setting is audio directions on.
- **Show correct and incorrect answers:** Use the check box to enable or disable this feature, which allows students to see which questions they answered correctly and incorrectly after they have finished a test.
- **Include Constructed Response questions:** Use the check box to include Constructed Response questions at the end of a student’s xSkills test.
- **Include Writing Prompt:** Use the check box to include the Writing Prompt at the end of a student’s xSkills test.

English Language Learner Audio Directions

This area allows teachers to choose to have English language learners hear test directions in Spanish. Click **Spanish** to activate this setting (the default setting is None).

Scoring Guide Settings

Administrators may change the scoring guide and descriptions for each Constructed Response score.

There is one Scoring Guide, however Scoring Guide settings and options may be edited. To set the Scoring Guide settings and options from the Settings tab:

1. Enter changes, modifications, or updates into the **Label** or **Description** text boxes.
2. Click **Save & Return** to keep the changes and return to the Profile screen. Click **Save** to save the changes and remain on the Settings tab. Click **Restore Defaults** at any time to return to the initial settings for the labels and descriptions. Click **Cancel** to disregard changes.

The xSkills Test Grading Tool

xSkills Tests Grading Tool

Choose a test:

Test	Date	Score	
<input checked="" type="radio"/> Course II Test 7	05/26/09	86% (38/44)	Remove

Use the scale below to score each question. Enter your comments in the comments box. [View Print Version](#)

Const. Response 1 **Const. Response 2** Const. Response 3 Writing Prompt

Question:
 In "Mary Kingsley, Explorer," what did Mary Kingsley do that was unusual for an Englishwoman in her day? (2 points)

Student response:
 Mary Kingsley traveled to remote areas of Africa on her own. A woman traveling alone was unheard of, particularly to such a place as the less populated areas of Africa.

Choose a score:

1	2
---	---

Satisfactory: • Responds to the question and includes two or more important

Enter your comments:
 interesting very detailed

Buttons: Cancel, Cancel & Return, Save, Save & Return

Use the xSkills Test Grading Tool to review, grade, comment on, and print students' answers to optional Constructed Response questions and the Writing Prompt. The Grading Tool may only be accessed from a student's Profile screen.

Each xSkills test may have three Constructed Response questions and a Writing Prompt in addition to the multiple-choice items. The Grading Tool allows teachers to assign a score (based on either a 2-point or 4-point scale) to a Constructed Response question and comment on students' work. The Grading Tool also allows teachers to assign a score to the Writing Prompt and add comments to students' work.

Selecting and Removing Tests

Test	Date	Score	
<input checked="" type="radio"/> Course II Test 7	05/26/09	86% (38/44)	Remove

The Choose A Test table lists each completed test in chronological order. Clicking the column headings resorts the tests. Click a button to select a test and display that test's Constructed Response and Writing Prompt. To remove a test, click the **Remove** link. A prompt appears to confirm this choice.

Removing a test from the Grading Tool removes it from all reports as well.

Scoring and Commenting on Student Exercises

Use the scale below to score each question. Enter your comments in the comments box. [View Print Version](#)

Const. Response 1 **Const. Response 2** Const. Response 3 Writing Prompt

Question:
In "Mary Kingsley, Explorer," what did Mary Kingsley do that was unusual for an Englishwoman in her day? (2 points)

Student response:
Mary Kingsley traveled to remote areas of Africa on her own. A woman traveling alone was unheard of, particularly to such a place as the less populated areas of Africa.

Choose a score:
1 2

Satisfactory: • Responds to the question and includes two or more important

Enter your comments:
interesting very detailed

After choosing a test, students' work appears in the Constructed Response and Writing Prompt tabs if those options are assigned for the selected test. To score and comment on a Constructed Response or Writing Prompt:

1. Click the appropriate tab to choose the question or exercise to grade. Review each student response on the left side of the tab.
2. Click one of the numbered buttons under Choose a Score to select a number score for the question. Descriptions of each score appear in the box below the buttons.
3. Type any additional comments in the **Enter Your Comments** box.
4. Click **Save & Return** to save the changes and return to the **Profile** screen. Click **Save** to save the changes and remain in the **Grading Tool**.
5. Click **Cancel** to undo changes, or **Cancel & Return** to return to the **Grading Tool** without saving changes.

Click the **View Print Version** link to view a PDF file of the student's test.

Teacher Tip

It may be helpful to write comments first and then read the descriptions associated with each scoring guide in order to assign the most appropriate grade.

xSkills Reports

xSkills reports provide detailed information about students' progress on the xSkills tests. These reports help target instruction for students, assess strengths and weaknesses, motivate students, and pinpoint areas where students might be struggling.

Teachers may run reports for classes, groups, and students assigned to them. Administrators or teachers with administrator permissions may run reports at the school level.

Report Types

There are three different types of xSkills reports to choose from:

Report Type	xSkills Report
Progress Monitoring reports show skills progress and let teachers know how individual students, classes, or groups are doing over time.	<ul style="list-style-type: none"> ● Grading Report ● Summary Progress Report ● Student Progress Report
Diagnostic reports show strengths and weaknesses in specific areas and help teachers differentiate instruction to meet individual needs.	<ul style="list-style-type: none"> ● Student Skills Report ● Student Test Printout
Instructional Planning reports help teachers plan targeted, data-driven instruction and group students according to their skill needs.	<ul style="list-style-type: none"> ● Summary Skills Report

Customizing Reports

There are many options for customizing reports to meet classroom needs. Reports may be specified to a time period to focus on student performance during a particular time; reports may be generated for a group, class, grade, or student by making a selection from the **SmartBar**; and data may be sorted in a report by clicking the column headers.

Teacher Tip

To monitor class performance, run the Summary Progress Report for the class.

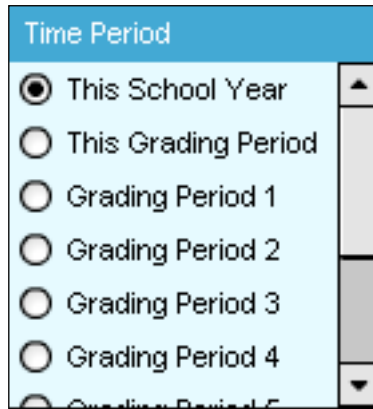

Quick Steps for Running Reports

To run an xSkills report in SAM:

1. Click the **Reports** tab or the **Reports** button on the SAM Home Page to open the **Reports** index.
2. Double-click a name in the **SmartBar** to select the student, group, class, teacher, grade, or school for which to run a report. Teachers may run reports for students, groups, or classes; administrators may also run reports for teachers, grades, or schools.
3. The Reports Index lists each of the programs the school is using and the recommended reports for the **SmartBar** selection.

▼ Expert 21	
<input type="radio"/> Student Progress Report	Progress Mon...
<input type="radio"/> Student Skills Report	Diagnostic
<input type="radio"/> Student Test Printout	Diagnostic

4. Click the button next to the name of the report to run.
5. Depending on the report, teachers may change the time period by using the buttons in the **Time Period** menu on the right side of the screen.

6. Click **Run Report** to display the report on screen.

42. "In Diving Into Danger," why was Jada worried when the squid wrapped its arms around the sub? (2 points)

She was afraid that the squid might crush the sub. She remembered that squid do not let go of their prey.

Comment: You correctly stated that Jada was worried because she knew the destructive potential of a squid.

Using This Report

Purpose: This copy of an xSkills Test shows each question, the skill it tests, and the correct answer. A darkened bubble indicates the student's answer. An "X" indicates a question answered incorrectly.

Follow-Up: Meet with students individually to review the questions they answered correctly and incorrectly, and reteach skills as necessary.

Page 12 of 12

Report Type: Diagnostic

Purpose: This is a copy of an xSkills test showing each question. On multiple-choice questions, the printout shows the skill it tests, and a darkened bubble indicates the student's answer. An "X" appears next to each question answered incorrectly, and an arrow points to the correct answer. On Constructed Response and Writing Prompt questions, the printout shows the student's answer and the teacher's feedback.

Follow-Up: Meet with individual students to review the questions they answered correctly or incorrectly, and reteach skills as necessary.
