

## Disabling Spelling Suggestions on Android Devices when Using *iRead*

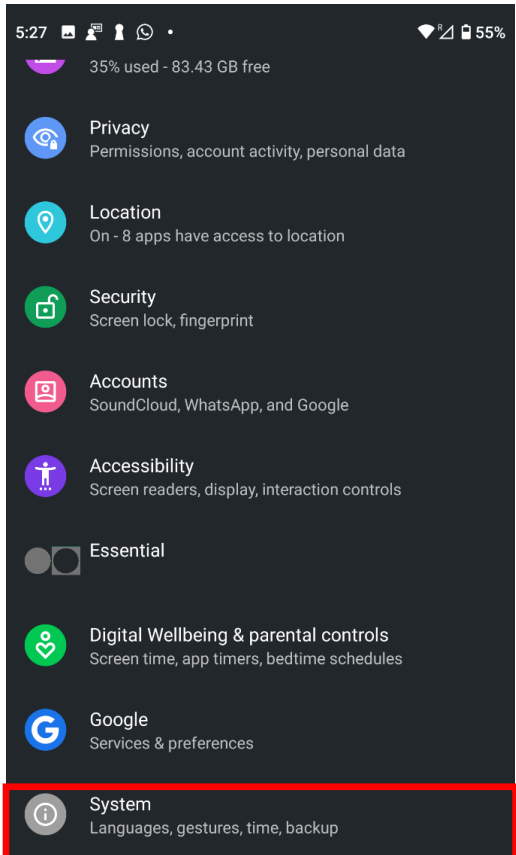

To use *iRead* on some Android devices, it may be necessary to disable the spelling suggestions.

To disable the spelling suggestions, follow these steps (note that the settings may vary based on the device):

1. Select the Settings app on the device.

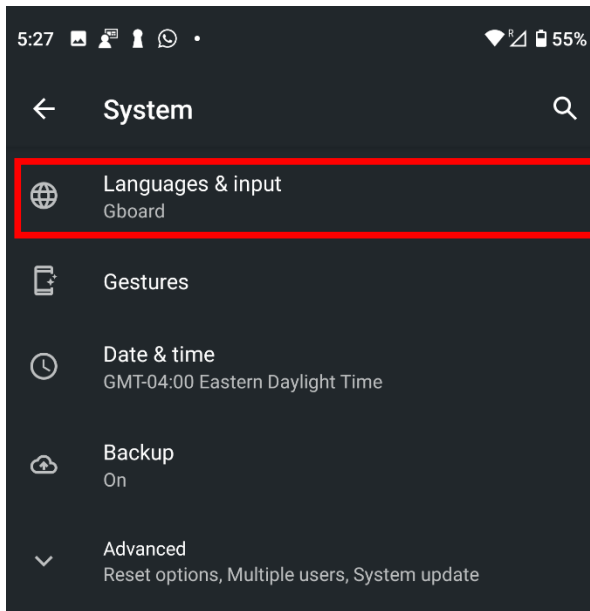

2. Select **System** from the Settings menu.

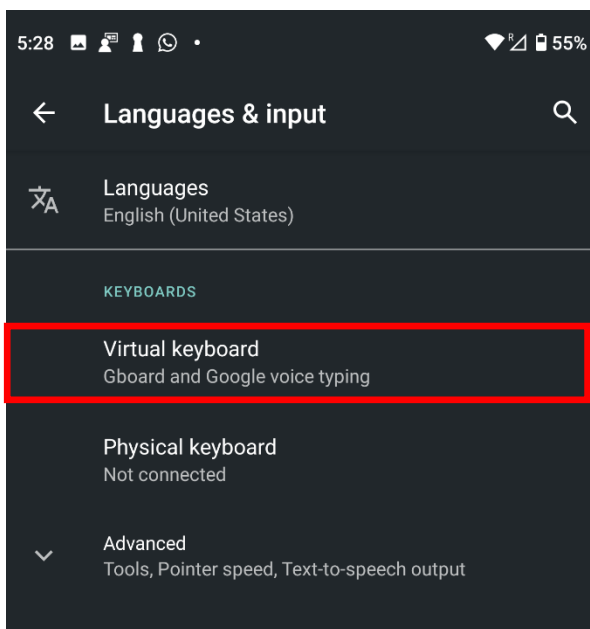

3. Select **Language & Input**.

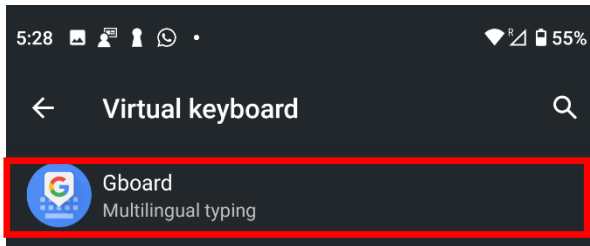

4. Select **Virtual Keyboard**.

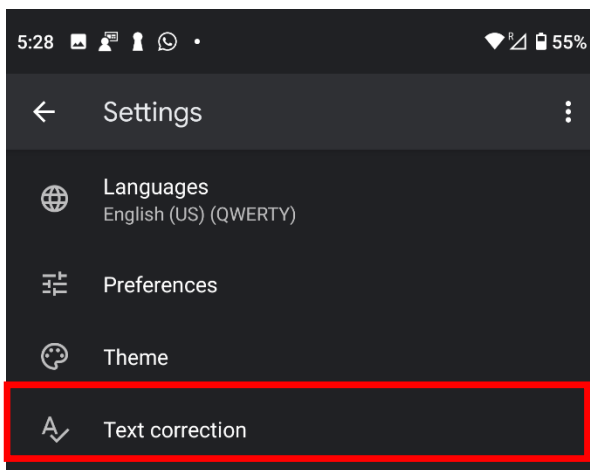

5. Select **Gboard** (this will usually be the default keyboard; do not select it if the device is using a custom keyboard).

6. Select **Text Correction**.

7. Toggle the switch next to Show suggestion strip to off. This should also turn off Next Word Suggestions.
