### Version 1.272 (SAM Connect)

June 27, 2020

#### Updates

- Dashboards now include *MATH 180* Years 1 & 2 in the Administrator view.

### Version 1.0.1-3 (Dashboard Loader)

January 17, 2020

#### Updates

- Dashboard notifications emails now include students' first and last names.

### Version 1.260 (SAM Connect)

October 25, 2019

#### Updates

- Updated the email template for the *MATH 180* notification digest.

## **Version 1.0.1-510**

**July 26, 2019**

### **Updates**

- Enhanced Dashboard login functions allows for longer usernames and passwords of up to 255 characters.

## **Version 1.0.1-508**

**March 29, 2019**

### **Updates**

- Resolved an issue that caused some text to get cut off in Notifications.

## **Version 1.0.1-503**

**January 4, 2019**

### **Updates**

- Students grouped via the Groupinator now appear on the *System 44* Next Generation Lesson Plans.
- Resolved an issue that kept Lesson Plans from being previewed or saved.
- Resolved issues that kept the End of Workshop CheckPoint in Groupinator from retrieving groups.

## **Version 1.0.1-500**

**December 8, 2018**

### **Updates**

- Resolved an incorrect link to the *System 44* Next Generation CheckPoint lessons.
- Resolved issues that caused discrepancies with displaying the correct students and recommended groups in the Writing CheckPoint tab in the Groupinator in classes running *READ 180* Next Generation and *System 44* Next Generation.

### **Version 1.0.1-498**

**October 13, 2018**

#### **Updates**

- Writing CheckPoint Groupinator groups now only include students listed in the Student Roster in SAM.
- Resolved an issue that kept the Groupinator from retrieving End of Workshop CheckPoint groups.

### **Version 1.0.1-497**

**October 13, 2018**

#### **Updates**

- Resolved an issue that caused Groupinator groups to not display correctly in Microsoft Edge when twelve or more students were assigned to a group.

### **Version 1.0.1-494**

**September 14, 2018**

#### **Updates**

- Resolved an issue that caused some teachers to see a blank screen after logging in and accessing the Next Generation Dashboards.

### **Version 1.0.1-491**

**September 7, 2018**

#### **Updates**

- Resolved an issue that kept some users from saving or editing lesson plans on the Next Generation Dashboards.
- Resolved an issue that kept teachers in Texas from retrieving Texas state standards on the Next Generation Dashboards.

## **Version 1.0.1-490**

**August 25, 2018**

### **Updates**

- Various visual improvements.
- Resolved an issue that caused student names to be displayed three times in the Groupinator.
- Resolved an issue that kept district administrators from districts with multiple servers from scheduling district level reports.

## **Version 1.0.1-484**

**August 3, 2018**

### **Updates**

- *READ 180* Next Generation Data Snapshot filters have been added to the HTML5 version of the Next Generation Dashboards.
- Resolved an issue that caused the confirmation prompt (asking “Do You Want To Save Changes?”) to not appear when cancelling out of a lesson plan.
- Various visual improvements.

## **Version 1.0.1-471**

**July 20, 2018**

### **Updates**

- Next Generation Dashboards have been redeveloped and converted to HTML5, and no longer uses Flash. The overall UI and user experience in the HTML5 version is consistent with the Flash version of Dashboards.
