

Quick Guide to Interactive Teaching System (ITS) HTML5 Version

HMH has released the HTML5 version of the Interactive Teaching System (ITS) as part of its move away from Flash. The HTML5 version contains many of the same features, some new features, and some reconfigured features.

Here's where to find the ITS features in the HTML5 version:

My Notes

Evidence	In My Own Words
"In flight, meteorologists collect storm data."	While the pilots are flying, scientists gather information about the storm.
"Scientists at the National Hurricane Center enter the hurricane's longitude into a computer. They analyze it to make a forecast."	The information that the leaders collect is used by scientists on the ground to make a guess about the weather.
"People living in the storm's path hear the forecast. The forecast says how intense the hurricane will be."	The forecast helps people learn about the hurricane.

The ability to project is available on pages that include student facing content using the Projection menu. This menu will not appear pages with teacher facing content only.

Key Functions

The HTML5 version contains these new functions:

- Flashcards: New. Provides a space for teachers to create and display flashcards
- Citation: New. Provides a citation for the book in MLA, APA, or Harvard style
- Link: New. Provides a URL for the current page

The following ITS functions remains the same:

- Go to Page Navigation
- Search
- Table of Contents
- Bookmarks
- Highlights
- Print
- Zoom by %
- Toggle Presentation Mode (Projection Menu)
- Select Answers (Projection Menu)
- Toggle Answers (Projection Menu)
- Coming Soon: Double-Page

These ITS functions have changed or been removed:

- Go To My Library: Button removed. The eReader will open in a new tab. Teachers can return to the ITS bookshelf tab to select a different title
- Drag Page: Removed.
- Zoom: Fit to width/height functionality removed
- Help: Removed
- Page Turning: *READ 180* Next Generation and *System 44* Next Generation titles have vertical page turning; all other titles have horizontal page turning.
- Notes (Teacher Notes do NOT carry over from the Flash version to the HTML5 version of the ITS and there is no way to export them. Contact Technical Support for more information.)
