What’s New In *Scholastic Reading Counts!* and Scholastic Achievement Manager Version 2.2?

Scholastic customers already using Scholastic Achievement Manager (SAM) will notice new features in version 2.2:

Scholastic Reading Counts!

- **Book Expert Online:** Starting with version 2.2, the *Scholastic Reading Counts!* (SRC!) Book Expert is an online resource, providing a larger database of SRC! titles. The website is accessible from the Books tab in SAM, though no longer a part of SAM.
- **New Reports:** SRC! version 2.2 combines the Quiz Alert, Reading Alert, and Quiz Difficulty Alert report into a single SRC! Quiz Alert Report.
- **Common Core State Standards (CCSS):** SRC! quizzes incorporate Common Core State Standards.

Scholastic Achievement Manager (SAM)

- **New Password Requirement:** Administrators must create a unique username and password at first login of SAM.
- **CSV Exports:** In SAM version 2.2, users may select specific classes for export and include up to three custom demographic fields to export.

Overview

Scholastic Reading Counts! (SRC!) is a reading management program that helps teachers encourage and assess independent reading. It includes quizzes for thousands of K–12 books. Teachers may create their own quiz collection or order collections organized by theme, topic, grade, author, or genre. Teachers may also write their own quizzes for books in their library that are not part of the *SRC!* program. Quizzes may be customized by setting such features as the number of questions per quiz, the number of correct answers needed to pass, and the number of attempts students are allowed to pass each quiz.

A Note for Next Generation Program Users

Districts with Next Generation programs installed on their servers will see a fifth SAM tab, the Portfolio tab. Only teachers with students enrolled in Next Generation programs are able to access the functions on the Portfolio tab. For information on using the Portfolio tab, see [SAM Settings and Reports](#) manuals for the Next Generation programs.

Scholastic Achievement Manager Manuals

For information on using the *SRC!* software, see the [Scholastic Reading Counts! Software Manual](#). For information on installing *Scholastic Reading Counts!* software, see the [Scholastic Reading Counts! Installation Guide](#). For other reference issues, see the chart below. All manuals are available at the [Scholastic Education Product Support](#) website.

Check if students are enrolled in *SRC!* by checking the Usage Summary section on the class's Profile Screen. Locate the number of students who are enrolled in each Scholastic program at the bottom of the table.

To enroll students in SRC! from the class's Profile Screen:

1. Click the **Manage Enrollment** link under Manage Roster in the upper right corner of the class's Profile Screen.
2. Use the check boxes to enroll students in any of the Scholastic programs, or use the check boxes at the top of the chart to enroll every student in the list at the same time.
3. Click **Save & Return** to save changes and return to the Profile Screen. Click **Save** to save changes and remain on the Enrollment tab. Enroll additional students in SRC! by double-clicking another class or group in the SmartBar.

Teachers may also enroll students from their Profile Screen or the student's Profile Screen using the same method.

The **Manage Enrollment** link lists only those programs for which there are licenses. Check the Total Seats Remaining line to see how many licenses are available. Students may only be enrolled in SRC! if there are licenses available. An error message appears if there are not sufficient licenses available. Contact the district or school administrator if additional licenses are needed.

SRC! Program Settings

Teachers and administrators may adjust *SRC!* Program Settings for classes, groups, and students to individualize *SRC!* for students. Use the settings to:

- Let students view incorrectly answered questions and print their results
- Set and change goals and award levels for students
- Set the number of quiz questions, quiz attempts, days between *SRC!* quizzes, and percentage required for passing a quiz, or restrict quizzes

There are two tabs on the *SRC!* Program Settings menu: Settings and Restrict Quizzes. To adjust these settings from the district's or class's Profile Screen:

1. Double-click a class, group, or student name on the SmartBar (administrators may also adjust settings on the teacher, school, or district level).
2. Click the **Settings** link next to *SRC!* in the Programs menu to access the *SRC!* Program Settings Screen.

Click **Save & Return** to save changes and return to the district's or class's Profile Screen.

Teacher Tip

Setting goals can be an excellent motivator for your students. Use the pull-down menu to select annual goals.

Using the Restrict Quizzes Tab

Installed quizzes are automatically available to all students enrolled in SRC! The Restrict Quizzes tab allows teachers to search and edit titles available to students.

Teachers may restrict a quiz for a class, group, or an individual student. Administrators may also restrict quizzes for teachers, schools, and districts.

To remove a quiz title, select the appropriate cohort in the SmartBar, search for the title of the quiz to be removed, then select the title to restrict it. From the Restrict Quizzes tab, you may also:

- Use **Quick Search** to find quizzes by title or the author's last name
- Use **Search** to find quizzes based on one or more specialized criteria

Teacher Tip

You may want to remove books available to your students that are far above their reading levels.

Running and Using Reports

When students work in SAM-based technology programs, SAM automatically collects and saves students' performance data. To access SRC! data reports in SAM, click the **Reports** icon on the SAM Home Screen or the Reports tab at the top of any screen in SAM. Reports provide data-driven information on student, class, and group progress in a variety of formats, including charts, graphs, and tables. They help monitor student progress, check software usage, plan instruction, and diagnose student needs.

Depending on the permissions setting in SAM, teachers may have access to different report options. For example, teachers may only run reports for classes, groups, and students assigned to them; however, accounts with administrator permissions can run reports on the school or even the district level.

Types of Reports

There are five types of reports in SRC!:

- **Progress Monitoring:** These reports provide information on student progress with particular skills as well as time spent in the program. They also keep teachers up-to-date on how individual students, classes, or groups are performing over time.
- **Instructional Planning:** These reports help teachers plan targeted, data-driven instruction. In these reports, teachers may group students according to their skill needs or according to the activities or topics students are working on.
- **Alerts & Acknowledgments:** These reports provide automatic updates via messages to teachers about milestones in students' achievements. They also appear in the Message Center on the SAM Home Screen.
- **School-to-Home:** These are letters to parents or guardians that include student-specific progress information as well as home-involvement suggestions. They are available in English, Spanish, Cantonese, Haitian Creole, Hmong, and Vietnamese.
- **Management:** These reports provide lists of enrolled students and (for administrators) all teachers and schools using Scholastic programs.

Some reports are tailored specifically to district and school administrators to facilitate district-wide reporting requirements.

Teacher Tip

The icon in the upper left corner of any Reports screen quickly identifies the type of report.

Report Description: Please select a report.

Run Report

The Reports Index lists the available reports for a SmartBar selection. Access the Reports Index by clicking the **Reports** icon on the SAM Home Screen or the Reports tab at the top of any screen. Clicking **My Classes** (or **My District** for administrators) at the top of the SmartBar shows all available reports according to permissions level in the main display.

Filtering the Reports List

At the top of the Reports Index, the Show pull-down menu provides four options for filtering reports:

- **All Reports:** Shows the complete list of reports available
- **Multi-Classroom Reports:** Shows reports that include data collected across several classrooms or schools
- **Classroom Reports:** Shows reports for students in one or more classes
- **Student Reports:** Shows reports for individual students

Click the column headings to sort the Reports Index. Double-clicking a student, group, class, teacher, grade, school, or district (depending on your account) in the SmartBar from the Reports Index shows the Scholastic recommended reports for that selection.

Running Reports

SAM reports may be filtered by type and time period. To run a report:

1. Click the Reports tab from any screen in SAM or the Reports button on the SAM Home Screen to show the Reports Index.
2. Double-click a name in the SmartBar to select the student, group, class, teacher, grade, school, or district for which to run a report.
3. The Reports Index lists each of the Scholastic programs the school is using and the recommended reports to run for the SmartBar selection. By default, All Reports is selected and all bars are open; clicking the bar closes that program's list. Under the SRC! bar in the Reports Index is a list of all SRC! reports available to the SmartBar selection.
4. Select a report by clicking the radio button next to the name of the report. Depending on the report, change the time period by making a selection in the Time Period menu on the right side of the screen. The recommended time period is the default setting.
5. Click Run Report to display the report on-screen.

To run the same report for another time period, or to change the time period:

1. Click the Time Period link and use the calendar tool to customize a new time period for which you would like to rerun the report.
2. Click Run Report to run the same report for the new time period.

To run a report for a different SmartBar selection from the Reports Index, double-click the desired profile on the SmartBar. The report will run for the new selection, if applicable. Some reports are valid for multiple SmartBar selections and others are not. Thus, running a student report and double-clicking a class name on the SmartBar does not run the report but returns the user to the Reports Index.

Teacher Tip

Click the Using this Report link on the top of any report for suggestions on how to apply each report to your class or students' goals.

Viewing Reports

When the report is selected and run, it appears in the Reports Index. Click the column headings to sort the results. The PDF of the report will reflect the sorts made. The on-screen report offers several options:

- **Time Period:** Changes the time period covered in the report
- **Apply Demographic Filter:** Launches the Demographic Filter, which helps filter the information for specific groups
- **Related Reports:** Opens a window showing a list of related reports
- **Save a Copy (PDF):** Allows the report to be saved as an Adobe PDF
- **Print Preview (PDF):** Launches the printing process for printing the report

For each report, Scholastic has compiled a list of related reports that it recommends for exploring data further.

To view Related Reports, click the **Related Reports** link in the upper right corner of the Reports Index. This opens a window that displays a list of reports that provide similar data.

Using the Demographic Filter

Student Profiles contain demographic categories that help districts and schools to track, monitor, and demonstrate that they are meeting their Adequate Yearly Progress (AYP) goals. The Demographic Filter provides focused reporting based on various categories, including:

- AYP criteria:** Make distinctions between students with economic disadvantages, gifted and talented students, students with limited English proficiency, students with disabilities, and migrant students
- Ethnicity:** Identify students from various ethnic backgrounds, such as Asian, American Indian/Alaskan Native, Pacific Islander, Black/African American, and White/Caucasian
- Grade:** Filter reports depending on which grade the student or class is associated with
- Gender:** Choose between Male and Female
- Scholastic Program:** Make distinctions based on what Scholastic program a student or class is enrolled in

Use the Demographic Filter to run any Multi-Classroom or Classroom reports (up to 30 students in a class) by one or more of the demographic categories. Choosing more than one category will generate more specific reports. To apply demographic filters to a report from a reports screen:

- Click the **Apply Demographic Filter** link on the top of the reports screen to open the Demographic Filter window, then use the check boxes to select the categories of students wanted in a report.
- Click **Run Report** to rerun the report which now displays the students in the selected categories.

Teacher Tip

To run a report using a different set of criteria, click **Apply Demographic Filter** and check the appropriate categories. This allows users to compare data among different groups or students in the school or district.

Returning to the Reports Index

After running a report, click the **Show All Reports** link under the Reports tab to return to the Reports Index. The Reports Index will show a list of all the reports available for the Profile selected on the SmartBar.

Printing a Report

Teachers may print any report for record-keeping purposes or sharing with administrators, students, or parents. To print a report from the Reports Index:

1. Click the **Print Preview (PDF)** link to open the report in a new window.
2. Select **File**, and then **Print** from the menu.

Saving a Report to Your Computer

Users may save any report to their computer or workstation after they run it. To save a report from the Reports Index:

1. Click the **Print Preview (PDF)** link to open the report as a PDF file.
2. Select **File**, then **Save As** in the PDF to save the report, or select the **Save** icon in the toolbar.
3. Select the location where you want to save the report.
4. Click **Save** and close the PDF viewer.

Teacher Tip

Although each report is listed under only one category, reports can be used for multiple purposes as needed.

Saving a Report in SAM

The screenshot shows the SAM interface for Sarah Greene. The top navigation bar includes 'Home', 'Roster', 'Reports', 'Resources', 'Books', and 'Portfolio'. The 'Reports' tab is active, displaying 'Saved Reports for Greene, Sarah'. A table lists the following reports:

- Talk about what your child is reading. Ask questions about the plot or about fun facts if it's nonfiction.
- Try to find a variety of reading materials for your child to experience: fiction, nonfiction, magazines, newspapers, humorous books, recipes, maps, etc.

Thank you for making Reading Count! for Chris this school year and always.
