

SUCCESS STORIES

EDUCATORS, STUDENTS, & FAMILIES SHARE THEIR READING SUCCESS!

Unmotivated Learner to Successful Student

“Once I started learning new stories and grammar, I realized how much I did not know. READ 180 has taught me how to read and write so much better than I could before. I have had such a great experience and I will never forget how I was taught to read better.”

Samantha
2010 Scholastic READ 180 All-Star, Stage C
CA

A 16-year-old from Los Alamitos, CA, Samantha started high school with the belief that she did not need reading support, despite a Lexile score of only 139, the equivalent of a first-grade reading level. A social and talkative teenager, Samantha didn't know how much help she really needed until after she was enrolled in *READ 180* and began working on the program in earnest. Her teacher, Jacqueline Post, confirms that “the realization that reading was a real struggle for her became evident,” but as Samantha experienced success in *READ 180*, she became more and more determined to raise her reading scores and become a stronger student across all subject areas.

And succeed Samantha did—two years after Samantha enrolled in *READ 180* her Lexile measure has skyrocketed, advancing over 1000L and placing her on-level with her peers. Along with improving her reading skills, *READ 180* has helped Samantha gain the confidence that she can achieve anything she puts her mind to.
